**Barbaro Fencing Components** is South Australia's leading manufacturer of fencing components.

Originally founded in 1979 as **J Barbaro & Sons** by Joe Barbaro and family, we've spent more than 40 years supplying the fencing and manufacturing industries with high-quality steel fencing and building components, along with general engineering services.

In 2022, we began our rebrand to **Barbaro Fencing Components**, continuing the same commitment to exceptional service, quality workmanship, and the friendly faces you've come to know and trust. Visit us at our Wingfield factory to see how we can help with your next project.

**What We Offer**

**Over 40 Years of Experience**  
With decades of industry knowledge, our proven methods ensure you get exactly what you need without wasting valuable time or resources.

**Fast, Reliable Service**

At **Barbaro Fencing Components**, we know that time is money. Whether your order is big or small, we work hard to deliver quickly, efficiently, and to the highest standard.

**Quality Materials**

We use only premium-grade materials, so every product is built to withstand the harsh Australian climate.

**Extensive Product Range**

Our large selection of stock means you can be ready for most fencing jobs with just one visit to our factory outlet.

**Collaborative Approach**

Some projects can be time-consuming or complex, so we work with you to find the most practical and cost-effective solution for your needs.

**Engineering Capabilities**

With a wide range of machinery—punching, guillotining, welding, and more—we're equipped to help you achieve a clean, professional finish every time.
